

## Pro Studio 66

Classical Profel mid-sized shelf/stand monitor with powerful performance. New custom waveguide, perfectly balanced for high impact near-field monitoring and mastering.

Also perfect as main and surround speakers for stereo and multichannel applications, home studios, workstations, auditorium installations, mobile studios and home entertainment installations.

Like all Profel studio series speakers, the PS66 is shielded from radio frequency disturbances. The speaker's electronic components are protected by safety circuits from possible damages caused by signal overload.

An optional floor-stand is also available.
